

AARON WOLFE SCHEFFLER

Department of Epidemiology & Biostatistics
University of California, San Francisco
550 16th Street, San Francisco, CA 94158

tel: (415) 476-2300
web: ucsf.profile.com/aaron.scheffler
email: aaron.scheffler@ucsf.edu

Education

2019	Biostatistics, University of California, Los Angeles	Ph.D.
2015	Biostatistics, University of California, Los Angeles	M.S.
2011	Biochemistry, Columbia University	B.A.

Employment

Current

2026-present	Associate Professor in Residence, Department of Epidemiology & Biostatistics, UCSF
2021-present	Faculty Member, Computational Precision Health, UCSF & UC Berkeley
2019-present	Faculty Member, Bakar Computational Health Sciences Institute, UCSF
2019-2026	Assistant Professor in Residence, Department of Epidemiology & Biostatistics, UCSF

Previous

2015-2019	Graduate Student Researcher, Department of Biostatistics, UCLA
2014-2016	Graduate Student Researcher, Semel Institute, UCLA
2011-2013	Researcher, Healthy Communities Institute, Berkeley, CA

Research Interests

Disease Progression Models; Multimodal Neuroimaging; Functional Data Analysis; Bayesian Data Analysis; High-Dimensional Structured Data

Research Publications

Published: methodology

- [1] Guhaniyogi, R., & **Scheffler**, A. W. (2025). "Sketching in high-dimensional regression with big data using gaussian scale mixture priors." *Journal of Machine Learning Research*, 26(271), 1–28.

Teaching

UCSF | Department of Epidemiology & Biostatistics

2023 - present *BIOSTAT 208: Biostatistical Methods for Clinical Research II*
Course Director and Lecturer
 This is a second course in biostatistics, focusing on multi-predictor variable methods, including multiple linear and multiple logistic regression. Emphasis is on the practical and proper use of statistical methodology and its interpretation.
Evaluation* (0-5), mean:
 2025, 4.61
 2024, 4.66
 2023, 4.87

UCSF | School of Medicine

2020 - present *Core Inquiry Curriculum 121A-C: Epidemiology, Biostatistics, and Population Sciences (EBPS) Curriculum*
Lecturer
 EBPS comprises tools that all Domains of Understanding rely upon, allowing for the interpretation of data and for researchers and clinicians to test hypotheses of complex questions.
Evaluation* (0-5), mean (sd):
 2022, 121A 4.0 (0.89)
 2021, 121A 4.33 (0.87); 121B 3.98 (0.82); 121C 4.31 (0.64)
 2020, 121B 3.95 (0.79)

UCSF | School of Pharmacy

2023 - 2024 *PharmIS 110, 111, 112: Epidemiology, Biostatistics, and Population Sciences (EBPS) Curriculum*
Lecturer
 Three lectures per year covering introductory biostatistics, regression analysis, and meta-analysis for first-year pharmacy students.

UCSF | Department of Epidemiology & Biostatistics

2019 - 2023 *BIOSTAT 202: Opportunities and Challenges of Complex Biomedical Data*
Course Director and Lecturer
 This course introduces the opportunities and challenges of using biological and health-related “big data” to perform biomedical research.
Evaluation* (0-5), mean (sd):
 2023, 4.97 (0.18)
 2022, 4.65 (0.63)
 2021, 4.95 (0.22)
 2020 4.93 (0.26)
 2019, 4.85 (0.37)

*Evaluations presented when available.

Grants**Ongoing: PI/MPI**

R01NS131604 (**MPI: Scheffler (contact), Guhaniyogi**) 04/01/2023 – 03/31/2028
 NIH/NINDS \$1,530,710

Title: Bayesian Object-Oriented Modeling of Multi-Modal Imaging Data

Clinical researchers collect brain images from multiple modalities to enhance diagnosis and treatment of neurodegenerative disorders (NDs), yet their impact is constrained due to a lack statistical methods that model information both within and across images. This proposal develops a new Bayesian framework to address the theoretical and computational challenges of jointly modeling structural and network brain images, exploiting their linkage to advance the study of ND. The goal is to provide imaging statisticians and practitioners with a set of inferential tools that harness the potential of existing multimodal imaging data to improve the study of cognitive theory, disease progression, and biomarker development.

Role: Principal Investigator

K12TR006125-01 (**MPI: Scheffler, Ackerman, Sarkar (contact)**) 07/2026 – 06/2031
 NIH/NCATS \$5,014,334

Title: CTSA K12 Program at UCSF

The UCSF K Scholars Program is designed to train and support early-career faculty in advancing translational science through interdisciplinary research and innovative thinking. The program aims to cultivate independent researchers by offering specialized training, mentorship, and protected time for research in three critical domains: artificial intelligence (AI), learning health systems (LHS), and community engagement strategies.

Role: Multiple Principal Investigator / Associate Program Director for Biostatistics and AI

Completed: PI

NSF 2113581 (**PI: Scheffler**) 06/01/2022 – 05/31/2026
 NSF \$110,000

Title: Collaborative Research: Use of Random Compression Matrices For Scalable Inference in High Dimensional Structured Regressions

The two important aspects of modern statistical learning approaches in the era of complex and

high dimensional data are accuracy and scale in inference. To offer a general solution for this challenge, we propose approaches based on data compression using a small number of random linear transformations. Our approach either reduces large number of records corresponding to each variable using compression in which case it maintains feature interpretation for adequate inference, or, it reduces dimension of covariate vector for each sample using compression in which case the focus is only on prediction of the response. In either case, data compression facilitates drawing storage efficient, scalable and accurate Bayesian inference/prediction in presence of high dimensional data with sufficiently rich parametric/nonparametric regression models.

Role: Principal Investigator

UCSF CTSI 2001449 (**PI: Scheffler**)

06/2020 – 05/2021

UCSF Clinical and Translational Science Institute \$39,037

Title: Efficacy and Impact of Contact Tracing in San Francisco and Beyond: An Open-Source Computational Study Using Agent-Based Models

Role: Principal Investigator

Ongoing: Co-I

R01 NS125404 (Peyvandi) 12/01/2021 – 11/30/2026

NIH \$2,116,614

Title: The Risk of Acquired Neonatal Significant Brain Injury during Perinatal Transition in Congenital Heart Disease: TRANSIT CHD study

Role: Co-Investigator

R01 (Bailey) 06/2023 – 03/2028

NIH/NIAMS \$1,100,000

Title: Mechanistic Structure-function relationships for paraspinal muscle fat infiltration in Chronic Low Back Pain patients

Role: Co-Investigator

P01AG019724-21A1 (Gorno-Tempini) 08/2023 – 04/2028

NIH/NIA \$3,438,736

Title: Frontotemporal Dementia: Genes, Images, and Emotions

Role: Co-Investigator

2 P30 AG062422-06 (Rabinovici) 04/2024 – 03/2029

NIH/NIA \$14,489,692

Title: New Approaches to Dementia Heterogeneity

Role: Co-Investigator

R01HL165400 (McQuillen) 03/2023 – 02/2028

NIH/NHLBI \$2,727,645

Title: Brain Injury and Dysmaturation in Newborns with Congenital Heart Disease Born Preterm

Role: Co-Investigator

Completed: Co-I

R01 AG071756-01 (Lee) 07/01/2021 – 06/30/2026

NIH \$496,679

Title: Neurodevelopment in children from families with genetic frontotemporal dementia and Alzheimer's disease

Role: Co-Investigator

1 R01 AA 029962-01 (Hahn) 05/2022 – 02/2026

NIH/NIAAA \$1,123,777

Title: The Biomarkers for Alcohol/HIV Research (BAHR) Study

Role: Co-Investigator

KL2TR001870 (Grandis) 07/01/2021 – 06/30/2026

NIH-NCRR \$1,138,181

Title: Clinical and Translational Science Institute (K Scholars Program)

Role: K Scholars Mentor

R01AG059794 (Perry) 03/01/2019 – 03/05/2024

NIH \$2,455,805

Title: Reward processing in genetic frontotemporal dementia and mood disorders

Role: Co-Investigator

U19AR076727 (Lotz) 09/2019 – 08/2024

NIH/NIAMS \$18,209,811

Title: UCSF Core Center for Patient-centric Mechanistic Phenotyping in Chronic Low Back Pain

Role: Key Personnel / Analytics Core Co-Director

2RFINS050915 (Gorno-Tempini) 09/2022 – 08/2025

NIH \$2,913,465

Title: Primary Progressive Aphasia: Cognition, Anatomy and Progression

Role: Co-Investigator

R01HD099216-01A1 (Wu) 05/2020 – 04/2025

NIH/NICHHD \$1,778,443

Title: Maternal Antecedents and Electronic Fetal Monitoring in Term Asphyxia (MAESTRA)

Role: Co-Investigator

Presentations

Invited Presentations

2025	Statistical Methods in Imaging, Houston, TX
2025	International Society for the Study of the Lumbar Spine Annual Meeting, Atlanta, GA
2025	Departments of Biostatistics and Statistics Seminar Series, UMass-Amherst, MA
2024	International Conference on Computational and Methodological Statistics, London, UK
2024	Western North American Region of the International Biometric Society Meeting, Fort Collins, CO (June)
2023	International Conference on Computational and Methodological Statistics, London, UK
2022	International Conference on Computational and Methodological Statistics, London, UK
2022	Joint Statistical Meetings, Washington D.C.
2022	Western North American Region of the International Biometric Society, Virtual
2022	Statistical Methods in Imaging, Virtual
2021	International Conference on Computational and Methodological Statistics, Virtual
2021	New England Conference on Statistics, Virtual
2021	Joint Statistical Meetings, Virtual
2020	Statistical Learning and Data Science Section Meeting - ASA, Virtual
2020	International Conference on Information Processing and Management of Uncertainty in Knowledge-Based Systems, Virtual
2019	International Conference on Computational and Methodological Statistics, London, UK
2019	Department of Population Health, Langone Health, New York University
2019	Department of Biostatistics, Mailman School of Public Health, Columbia University
2019	Department of Epidemiology & Biostatistics, School of Medicine, University of California, San Francisco
2019	Department of Biostatistics, College of Global Public Health, New York University
2019	Department of Biostatistics, Rollins School of Public Health, Emory University
2019	Department of Biostatistics, School of Medicine, Vanderbilt University
2017	Western North American Region of the International Biometric Society Meeting, Santa Fe, NM (June)

Contributed Presentations

- 2020 Eastern North American Region of the International Biometric Society Meeting, Virtual (March)
- 2019 Eastern North American Region of the International Biometric Society Meeting, Philadelphia, PA (March)
- 2019 International Biometric Society Meeting, Barcelona, Spain (June)
- 2018 Eastern North American Region of the International Biometric Society Meeting, Atlanta, GA (March)
- 2016 Western North American Region of the International Biometric Society Meeting, Victoria, BC (July)

Honors and Awards

- 2024 Dean's Apple for Teachers Award, University of California, San Francisco, School of Pharmacy
- 2024 Excellence in Teaching, University of California, San Francisco, Training in Clinical Research Program
**Given to a single instructor each year*
- 2019 Carolbeth Korn Award for most outstanding graduating student of the Fielding School of Public Health, UCLA (\$10,000)
- 2018 Dissertation Year Fellowship, Graduate Division, UCLA (\$35,000)
- 2017 Graduate Research Mentorship, Graduate Division, UCLA (\$35,000)
- 2016 Best Student Paper, Western North American Region of the Int'l. Biometric Society (\$500)
- 2016 Graduate Summer Research Mentorship, Graduate Division, UCLA (\$6,000)

Professional Memberships

- 2016-present Member, Western North American Region of the International Biometric Society
- 2015-present Member, American Statistical Association
